

To our valued customers,

At Central Scott Telephone Company, our mission is to improve the community that we serve. Our commitment to that mission is even greater in times of crisis when our community needs us more than ever. We understand the critical importance of staying connected to voice and internet service for education, work and personal health reasons. We live in the community we serve, and we believe that it is our responsibility to step up and help out when our community is in need.

Central Scott Telephone Company has made progress over the past week expanding Free Community Wi-Fi access. This expansion could not have happened without the support of multiple community partners including Lighting Maintenance, Inc. (LMI) in Eldridge for the help with their crane at the Library on Saturday, March 21st, Scott County IT Department and Sam Samara's volunteer time, Scott County Library and Tricia Kane's volunteer time, St Ann's Catholic Church, Faith Lutheran Church, Molly Bergfeld with the North Scott School Board and many more.

Sites available with outdoor **Free Community Wi-Fi** now include:

- **Scott County Library** - Located at 200 N 6th Ave, Eldridge, IA 52748. To further assist community members that may be impacted, a Wi-Fi hotspot has been extended to cover the Scott County Library parking lot in Eldridge. With the Library closure on March 17th, 2020 we acted quickly, partnering with the Scott County Library system and Scott County IT staff, to augment this capability extending coverage to the parking lot.
- **St Ann's Catholic Church** – Located at 16550 290th St, Long Grove, IA 52756. Coverage extended to the Parking Lot with the cooperation of Monsignor Drake and staff volunteers.
- **Faith Lutheran Church** – Located at 500 W Le Claire Rd, Eldridge, IA 52748. Coverage extended to the Parking Lot with the cooperation of Pastor Carrie and staff volunteers.
- ***Please check our website for the location of possible future Wi-Fi hot spots where you can stay in your vehicle to maintain social distancing and access the internet.***

Please be assured that as our company responds to the coronavirus, and especially with the need for social distancing, we realize how critical it is that you have connectivity to your family, friends, work and education. The health and safety of customers and employees is our top priority and we will do everything we can to meet the needs of our community when we are needed most.

Thank you for being a Central Scott Telephone Company customer. We truly appreciate your loyalty.

Best Regards,

Donn Wilmott
